RE: Canada Post Service Disruption

Dear Prescribers & Pharmacists:

Due to the potential disruption of Canada Post mail services in July, the NSPMP recommends that prescribers who may require additional prescription pads place their orders by June 24, 2016 to ensure timely delivery. During a mail service disruption prescription pad orders will be processed, although delivery times may be impacted.

To ensure duplicate pad orders are received by the NSPMP it is recommended that you place orders via telephone toll free at 1-877-476-7767, local 902-496-7123 or via fax 902-481-3157.

In addition, information routinely sent to the NSPMP by mail can be sent by secure fax at 902-481-3157.

Sincerely,

Kevin Lynch
Manager, Nova Scotia Prescription Monitoring Program
